

Customs Declarant

FF15 Logistics, transport and supply chain · ISCO-08 3331 · CBS 0435 Werkvoorbereiders en logistiek medewerkers · seniority medior · Also known as: Customs broker

Prepares customs declarations for import and export, checks documentation and ensures shipments comply with customs legislation.

The customs declarant works with strict deadlines around filing periods and carries personal responsibility for the accuracy of declarations. The distinction from a shipping employee lies in specialist knowledge of customs law and tariff codes. Selection often fails on candidates with logistics experience who underestimate the detailed knowledge of customs coding, which can lead to costly back charges.

5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O*NET convention.

Skill	N1	N3	N5
Customs and international trade documentation Knows commodity codes, import duties and document requirements for cross border transport and prepares declarations and transport documents correctly.	Checks under guidance whether the required documents for a shipment are present and complete.	Independently determines commodity code and procedure for a shipment, files the declaration and answers questions from customs.	Sets up the organisation's customs processes, maintains the licences and accounts for compliance during inspections.
Logistics planning Plans goods flows, capacity and routes so that lead time, cost and availability stay balanced, and adjusts the plan when disruption occurs.	Completes the daily plan according to the standard schedule and reports availability bottlenecks to the planner.	Independently replans routes and capacity when resources fail, weighs cost against lead time and informs customer and carrier.	Designs the organisation's logistics network and planning principles and holds chain partners to performance agreements.

Skill	N1	N3	N5
Safety awareness Continuously watches for unsafe situations and actions at work, addresses others about them and chooses the safe working method even under time pressure.	Follows the safety rules of the workplace and checks back when in doubt about an operation.	Recognises unsafe situations in own process, intervenes and addresses colleagues without bringing the work to a halt.	Sets the safety standard for the organisation, makes safety discussable at every level and steers behaviour and culture.
Accuracy and attention to detail Works carefully, checks own work for errors and keeps to agreements about completeness and correctness of data.	Goes through the own work with a checklist and repairs errors found before the work is passed on.	Builds check moments into the own process, keeps track of errors and prevents repetition by adjusting the method.	Sets the standards for completeness and correctness, has samples checked and addresses teams on structural sloppiness.
aligning and coordinating Aligning the activities of different people and groups in timing, sequence and content so that duplicated work and delays are prevented.	Aligns own activities with one direct colleague and confirms who picks up which task and when.	Organises consultation between the parties in a shared process, records agreements and actively tracks whether these are met.	Sets up the coordination structure between departments or chain partners and decides which meetings, roles and information flows the organisation uses as standard.
Planning and organising Placing activities, people and resources in time, setting priorities and arranging dependencies so that agreed results are delivered on schedule.	Makes a daily or weekly schedule for own tasks and sticks to the agreed order and times.	Plans the work of the team for several weeks, distributes tasks and reshuffles on disruptions without missing deadlines.	Sets the planning system for the organisation, links annual plan, capacity and budget and decides on conflicting claims.
Discipline and keeping commitments Sticks to agreements, procedures and commitments even without supervision, and reports in good time when a commitment turns out to be unachievable.	Arrives at the agreed time with the agreed work and reports any delay to the supervisor.	Commits only to what is feasible, tracks own commitments and informs those involved as soon as a deadline comes under pressure.	Anchors the standard for reliable follow through in working agreements and addresses anyone at any level who lets that standard slip.
Operational inventory management Tracks stock levels, order moments and locations, carries out counts and explains differences between system stock and actual stock.	Counts stock under supervision according to the counting instruction and records the result in the system.	Independently sets order levels for a product group, analyses stock differences and removes the cause in the process.	Sets the inventory policy, defines standards for turnover and service level and tests execution against them.

Skill	N1	N3	N5
Executing transport and distribution Transports and delivers goods according to route and driving time rules, checks freight documents and resolves deviations when loading and unloading.	Drives a fixed route under guidance, checks the consignment note and reports deviations on delivery.	Independently drives a multi drop route, keeps track of driving times and resolves problems at the customer on the spot.	Sets the execution standards for transport, reviews compliance with driving times and instructs drivers on new rules.
Using warehouse management systems Uses a warehouse management system for receipt, storage, order picking and shipping and resolves differences between system and shop floor.	Registers receipts and order lines in the system according to the work instruction and reports error messages to the team leader.	Independently resolves differences between system stock and location and adjusts settings within own authority.	Determines the configuration of the warehouse system, sets rules for its use and leads the introduction of new functionality.
Load securing and transport safety Secures loads according to weight, centre of gravity and regulations and works safely when loading, unloading and carrying dangerous goods.	Secures a load under supervision with the prescribed equipment and checks before departure that the lashing straps are tensioned.	Independently determines the securing method for an unusual load, calculates the required lashing force and refuses unsafe transport.	Draws up the company's load safety instructions, analyses incidents and tests compliance among drivers and loading crews.
Information gathering and filtering Searches purposefully for data in several sources, selects what is relevant to the question and leaves other information out.	Looks up the requested data in the designated sources and delivers them in full and with source references.	Chooses sources independently for an open question, filters out duplicate and outdated data and justifies that choice.	Designs the information flows for the whole field, decides which sources are authoritative and cuts redundant reporting.
Quality control Tests products, data or services against defined requirements, records deviations and sets corrections or improvements in motion.	Checks a product or file on the prescribed points according to instruction and records deviations.	Draws up a control plan for the own process, measures the quality and discusses the outcomes with those involved.	Sets up the quality system for several departments, chooses the measurement standards and accounts for results to client and regulator.
Prioritising and weighing options Orders tasks and options by importance, urgency and yield and makes the balance between cost, time and quality visible.	Completes the own tasks in the agreed order and reports it when two tasks clash with each other.	Chooses what is left undone when the planning is full, justifies this by importance and urgency and aligns it with those involved.	Sets the priority rules for the portfolio, stops running initiatives and accounts for the allocation of people and resources.

Skill	N1	N3	N5
Time management and prioritising Allocates available time across tasks by urgency and importance, sets a sequence and adjusts it when new work arrives during the period.	Follows a task list provided by others and asks which task takes priority whenever new requests arrive.	Ranks own work by urgency and importance, builds in buffer time and explains to others why an item will arrive later.	Sets prioritisation agreements and planning standards across the organisation and decides which work streams receive time and capacity when both are scarce.
Managing workload pressure Keeps an overview when the volume of work rises, chooses what goes ahead and what does not, and puts the consequences to stakeholders.	Tells the supervisor that the work does not fit the available time and follows the choice that is made.	Cuts or shifts tasks independently when busy on the basis of importance, records this and discusses consequences with clients.	Redistributes work and capacity across departments in cases of structural overload and sets norms for sustainable workload distribution.
Working with digital devices and applications Uses computers, mobile devices and standard applications to carry out work tasks, adjusts settings and resolves simple usage problems without help.	Opens and uses the prescribed applications for own tasks and asks for help whenever an unfamiliar message appears.	Selects the appropriate device and application for each task and fixes common disruptions without support from others.	Defines organisation wide which digital workplace facilities are used and guides their introduction across all teams.
Applying legislation Applies laws, decrees and policy rules to individual cases, weighs exceptions and records the reasoning behind the decision.	Applies the fixed decision rules to a standard case and refers doubtful cases to an experienced case handler.	Independently assesses an application with exceptional circumstances, weighs discretionary room and motivates the decision traceably.	Sets policy rules and work instructions for implementation and decides on application questions that set precedent.
Sustaining pace in repetitive work Maintains a constant pace and constant quality in recurring operations throughout the shift and spreads the effort over the available time.	Completes the assigned series of operations at the pace indicated and reports when a backlog arises.	Sustains the pace for a full shift, builds in own rhythm and short recovery moments and stays within the quality standard.	Sets attainable pace standards for the team and organises the work so that quality is retained at high output.
Clear oral expression Phrasing messages in spoken language so that the core point, the structure and the requested action are immediately clear to the listener.	Restates in own words what has been agreed and repeats the core of the instruction as a check.	Builds an unprepared spoken explanation into core point, background and next step, and adapts pace to the listener.	Sets the organisation wide standard for spoken clarity, explains complex strategic choices understandably and coaches others on their word choice.

Skill	N1	N3	N5
Retaining and applying knowledge Keeps acquired professional knowledge available, retrieves the right rule or procedure at the moment it is needed and applies it correctly at work.	Looks up the required procedure in the manual and follows it step by step on a familiar task.	Knows the rules of the own field by heart and applies them without reference material in varying situations.	Oversees the knowledge base of the whole domain, decides which knowledge must be secured and documents it for the organisation.
Spreadsheets and worksheets Builds worksheets with formulas, references and pivot tables, checks outcomes and presents figures understandably in tables and charts.	Enters data in an existing worksheet and uses simple formulas such as sum and average as instructed.	Builds a worksheet with linked formulas and pivot tables, checks for errors and explains the calculation logic to colleagues.	Sets the standards for calculation models in the organisation and judges whether models are reliable enough for decision making.
Managing service levels and performance indicators Agrees measurable service and performance standards, measures the actual results and takes action when agreed levels are not met.	Reads the performance overview and reports which agreement was not met in the past week.	Draws up indicators and standards for a service, reports per period and carries out improvement actions on deviation.	Determines the system of service levels for the organisation and negotiates these with customers and suppliers.

6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

Assessment method	rho	SD	What it is
Kennistoets	0.40	0.13	Test of declarative job knowledge, usually assembled per client.
Werkproef	0.33	0.09	The candidate performs a representative work sample under standardised conditions.
Situational Judgement Test	0.12	0.11	Scenario with response options, scored on knowledge or behavioural tendency.
Persoonlijkheidsvragenlijst	0.21	0.15	Self-report of behavioural preferences. At hrmforce the Big Fifty and the 15PF.
Assessment center	0.29	0.09	Multiple exercises, multiple assessors, dimension-wise scoring.
Certificaat/diploma	-	-	Formal proof of completed education or examination.
Praktijkobservatie	-	-	Structured workplace observation with a form based on behavioural anchors.
Structureerd interview	0.42	0.19	Behaviour-based interview with fixed questions and a rating scale per question.

7 Assessment instruments for this job

hrmforce instrument	Skills	What it measures
Werkproef	13	Representatief werkfragment onder gestandaardiseerde condities
Kennistoets (klantspecifiek)	10	Toets van vakkennis, per klant samengesteld
Competency Check	10	Competentiebeoordeling op gedragsniveau
Big Fifty	5	Persoonlijkheidsvragenlijst, 150 items, 25 factoren
360 Feedback	5	Meervoudige beoordeling op gedragsankers
15PF	1	Persoonlijkheidsprofiel, korter alternatief voor de Big Fifty
Pulse Survey	1	Periodieke meting op team- en organisatieniveau
Communicatiestijlen	1	Voorkeursstijl in communicatie
Ability Scan	1	Capaciteitentest: verbaal, numeriek en abstract redeneervermogen

8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
