

HR and Payroll Administrator

FF06 HR, recruitment and L and D · ISCO-08 4416 · CBS 0431 Administratief medewerkers · seniority junior ·
Also known as: HR Payroll Officer, People Administration Officer

Processes personnel changes and payroll data in a combined administration, checks source documents and delivers the input for the monthly payroll run.

This role combines personnel administration with payroll processing and is common at medium sized employers. Unlike the hr officer, it also carries responsibility for timely and accurate payroll data, with a hard monthly deadline. Selection often looks only at administrative experience, while the real risk is a change submitted late by a manager, causing an employee to be paid incorrectly.

6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
