

SEO Specialist

FF04 Marketing, communication and content · ISCO-08 2431 · CBS 0311 Adviseurs marketing, public relations en sales · seniority medior · Also known as: Search Engine Optimisation Specialist, Organic Search Specialist

Improves the findability of a website and its content in search engines by analysing and adjusting technical setup, structure and copy.

The SEO specialist works where content, technology and data meet, usually with a long term mandate around organic traffic. Unlike the SEA specialist, this role does not buy reach but builds it, which makes results measurable later. Selection often goes wrong by testing tooling and checklists, while the real work is justifying priorities to developers and editors who have to implement the changes.

Key figures for this profile

23 skills · 3 competencies to measure · 3 knockout skills · centre of gravity: Business operations, commerce and entrepreneurship 34%, Communication and influence 33%, Digital, data and AI 18%

1 Competencies to measure

These are the behavioural and ability constructs in this profile. Each one shows which hrmforce questionnaire measures it.

Competencies to measure	Target level	hrmforce instrument	Assessment method	Behavioural anchor at target level
Creative thinking Competency (50-framework): Creativiteit	 N4	Big Fifty, Competency Check	Persoonlijkheidsvragenlijst	Puts several unusual solution directions side by side for a stuck problem and works out the most promising direction further.

Competencies to measure	Target level	hrmforce instrument	Assessment method	Behavioural anchor at target level
external awareness Competency (50-framework): Omgevingsbewustzijn		Big Fifty, Competency Check	Structureerd interview	Follows sources outside the organisation systematically and uses those signals when adjusting working methods within the team.
Flexibility Competency (50-framework): Flexibiliteit		Big Fifty, 15PF, Competency Check	Persoonlijkheidsvragenlijst	Revises the approach independently when the request changes, keeps stakeholders informed and still delivers the result within the boundaries.

2 Full skill profile

Every skill in this profile, sorted by weight. The behavioural anchor under each skill belongs to the target level.

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
V	Written expression Independently writes texts with opening, core and closing, chooses a tone per audience and applies fixed terms consistently.	 N4	5	yes	Werkproef	Werkproef, Competency Check
V	Content creation for target audiences Determines message, form and channel per audience, produces the content and improves it based on reach figures.	 N4	5	yes	Portfolio/bewijsstuk	Portfolio, Werkproef
V	Data analysis Selects analysis methods for an open question, turns raw data into a working file and supports every conclusion with figures.	 N4	5	no	Werkproef	Ability Scan, Werkproef

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
V	Content marketing Creates an own content calendar per target group, writes the texts and steers on reach and engagement.		5	no	Portfolio/bewijsstuk	Werkproef, Portfolio
V	Marketing analytics and attribution Builds a dashboard per channel, checks the measurement setup and explains which campaign delivered which result.		5	yes	Werkproef	Werkproef, Kennistoets (klantspecifiek)
G	Creative thinking Puts several unusual solution directions side by side for a stuck problem and works out the most promising direction further.		4	no	Persoonlijkheidsvragenlijst	Big Fifty, Competency Check

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
V	Editing and plain language Rewrites a formal letter to plain language level B1 and explains to the author which choices were made.	 N4	4	no	Werkproef	Werkproef
V	Storytelling Builds a story with starting situation, turning point and outcome around a client case and links it to the message.	 N4	4	no	Simulatie	Werkproef, Competency Check
V	Customer segmentation and targeting Builds a segmentation from customer data and behaviour and explains the need and the value for each segment.	 N3	4	no	Werkproef	Werkproef
T	Managing digital advertising campaigns Manages several campaigns side by side, tests advertisement variants and shifts budget to the best performing combination.	 N3	4	no	Werkproef	Werkproef, Portfolio

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
V	Applying brand positioning and visual identity Tests publications from team and suppliers against the brand principles and corrects deviations with an explanation.		4	no	Portfolio/bewijsstuk	Werkproef, Portfolio
V	Searching and evaluating digital information Combines search terms and filters across several sources, weighs source reliability and justifies the selection made.		3	no	Werkproef	Ability Scan, Werkproef
V	Idea generation Leads an idea session for the team with a suitable format, collects dozens of ideas and groups them by theme.		3	no	Werkproef	Competency Check, Werkproef

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
V	Visual communication and data storytelling Chooses a fitting chart type per message, removes unnecessary styling and writes the conclusion above the figure.	 N3	3	no	Werkproef	Werkproef, Portfolio
V	Stakeholder management Assesses influence and interest per party, chooses a fitting form of contact and discusses conflicting wishes before a decision is taken.	 N3	3	no	Assessment center	Competency Check, 360 Feedback
T	Social media communication Manages a channel independently, replies to questions within an hour and uses statistics to choose posting moments.	 N3	3	no	Werkproef	Werkproef, Portfolio

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
G	external awareness Follows sources outside the organisation systematically and uses those signals when adjusting working methods within the team.	 N3	3	no	Structureerd interview	Big Fifty, Competency Check
V	Assessing data quality Defines validation rules for a data source, quantifies the defects and advises whether the data is fit for use.	 N3	3	no	Werkproef	Werkproef, Kennistoets (klantspecifiek)
V	Prompting and task delegation to AI Splits a work task into steps, decides which step AI does and which not and improves the instruction based on outcomes.	 N3	3	no	Werkproef	Werkproef, Portfolio

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
V	Improving customer journey and experience Maps out the customer journey for a service, names the three largest bottlenecks and implements improvements with those involved.	 N3	3	no	Werkproef	Werkproef, 360 Feedback
V	Marketing strategy Draws up a marketing plan for a service or market with goals, channel choice and budget and adjusts it on results.	 N3	3	no	Werkproef	Kennistoets (klantspecifiek), Werkproef
G	Flexibility Revises the approach independently when the request changes, keeps stakeholders informed and still delivers the result within the boundaries.	 N3	2	no	Persoonlijkheidsvragenlijst	Big Fifty, 15PF, Competency Check

T	Skill	Target level	Weight	Knockout	Assessment method	hrmforce instrument
K	GDPR and privacy in practice Processes personal data only according to the applicable work instruction and refers doubtful cases to the privacy officer.	 N2	1	no	Kennistoets	Kennistoets (klantspecifiek)

3 Levels per seniority

The same profile with the job family seniority adjustment applied. Target levels are clamped to 1 to 5.

4 The proficiency scale

Level	Label	Autonomy	Complexity	Scope	Depth of knowledge
N1	Guided	works under supervision and follows instruction	routine, one variable at a time	own task	basic understanding of terminology
N2	Applying	works independently within set frameworks	familiar situations with limited variation	own role	working knowledge, applies standard approach
N3	Proficient	sets own approach and seeks input proactively	several variables, some ambiguity	own team or process	thorough knowledge, weighs alternatives
N4	Advanced	directs others and decides on the approach	complex, with conflicting interests	several teams or a department	in-depth knowledge, advises others
N5	Leading	sets the standard and the policy	strategic, under high uncertainty	organisation, value chain or profession	authority, advances the profession

5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O*NET convention.

Skill	N1	N3	N5
Written expression Putting thoughts into correct and readable text with a logical paragraph structure, fitting tone and word choice suited to the reader.	Writes short messages and reports free of language errors after using a checking tool and a review round by a colleague.	Independently writes texts with opening, core and closing, chooses a tone per audience and applies fixed terms consistently.	Draws up the writing guide and house style for the organisation, approves publications on content and develops the writing skill of teams.
Content creation for target audiences Creating text, image and video for a defined audience and channel, with a message that prompts reading, viewing or action.	Creates a post following an existing format, selects a fitting photo and checks rights and accessibility.	Determines message, form and channel per audience, produces the content and improves it based on reach figures.	Sets the content strategy and brand guidelines, allocates resources across channels and accounts for results to the executive team.

Skill	N1	N3	N5
Data analysis Prepares and analyses data sets to find patterns, relationships and outliers and connects the outcomes to the original question.	Carries out a predefined analysis step on a supplied data set and records the outcome in the agreed format.	Selects analysis methods for an open question, turns raw data into a working file and supports every conclusion with figures.	Sets the organisation's analysis standards, reviews the analyses of others and establishes new analysis methods in the profession.
Content marketing Devises, creates and schedules text, images and video for the channels of the organisation so the target group is reached and engaged.	Publishes supplied posts according to the content calendar and checks language, imagery and links before publication.	Creates an own content calendar per target group, writes the texts and steers on reach and engagement.	Determines the content policy and brand voice of the organisation and decides on the use of editors, agency and channels.
Marketing analytics and attribution Measures the effect of marketing efforts with dashboards and models and attributes revenue and leads to channels and campaigns.	Pulls the standard reports from the analytics tool and puts the key figures into the weekly overview.	Builds a dashboard per channel, checks the measurement setup and explains which campaign delivered which result.	Chooses the attribution model for the organisation, weighs its limitations and steers budget allocation on the outcomes.
Creative thinking Looks at an issue from unusual angles, combines existing elements in a new way and comes up with own ideas.	Contributes an own idea in a meeting for a small improvement within the own task.	Puts several unusual solution directions side by side for a stuck problem and works out the most promising direction further.	Breaks through common assumptions in the field, brings in renewing solution directions and gives others room to experiment.
Editing and plain language Shortening, reordering and rewriting existing texts in plainer language without losing content, nuance or legal meaning.	Removes redundant words and repetitions from a text and corrects spelling according to a given checklist.	Rewrites a formal letter to plain language level B1 and explains to the author which choices were made.	Introduces an organisation wide plain language approach, measures readability of core products and adjusts standards based on user testing.
Storytelling Bringing a message in narrative form with characters, tension and a core point, so that the listener remembers and retells the content.	Uses an example from practice to make a figure or a rule understandable for colleagues in the team.	Builds a story with starting situation, turning point and outcome around a client case and links it to the message.	Develops the story of the organisation, has it recur across all channels and teaches managers to tell it themselves.

Skill	N1	N3	N5
Customer segmentation and targeting Divides customers and prospects into groups with comparable needs and value and chooses which groups the organisation will target.	Assigns customers to existing segments using recorded characteristics and reports doubtful cases.	Builds a segmentation from customer data and behaviour and explains the need and the value for each segment.	Establishes the segmentation model for the organisation, links it to offering and channels and revises it when markets shift.
Managing digital advertising campaigns Sets up campaigns in advertising platforms, configures audience, bid and budget and steers on cost per click, lead or sale.	Sets up a campaign following a fixed step plan and checks whether budget and end date are set correctly.	Manages several campaigns side by side, tests advertisement variants and shifts budget to the best performing combination.	Sets the standards for advertising purchase and measurement and decides on platform choice and annual budget.
Applying brand positioning and visual identity Determines or safeguards what the brand stands for and ensures that language, imagery and behaviour in communications match it.	Uses the prescribed logos, colours and templates and checks with others when in doubt about a publication.	Tests publications from team and suppliers against the brand principles and corrects deviations with an explanation.	Recalibrates the brand positioning of the organisation and sets the guidelines all publications must meet.
Searching and evaluating digital information Searches digital information with suitable search strategies, judges source and currency and records where information was found traceably.	Searches with given search terms in the designated sources and reports what was and was not found.	Combines search terms and filters across several sources, weighs source reliability and justifies the selection made.	Develops search and evaluation standards for the profession and trains others in weighing digital sources.
Idea generation Produces many and varied ideas in a short time, alone or with a group, and keeps generating separate from judging.	Delivers several suggestions in an idea round without rejecting or judging them straight away.	Leads an idea session for the team with a suitable format, collects dozens of ideas and groups them by theme.	Sets up idea processes organisation wide, involves customers and partners in them and keeps ideas findable and reusable.
Visual communication and data storytelling Presenting figures and processes in charts, graphs and diagrams that support the message and lead the reader to the correct conclusion.	Creates a chart in an existing template, adds a title and names the unit shown on the axis.	Chooses a fitting chart type per message, removes unnecessary styling and writes the conclusion above the figure.	Sets guidelines for visualisation and dashboard use across the organisation and judges whether displayed figures represent reality fairly.

Skill	N1	N3	N5
Stakeholder management Mapping who has an interest in an initiative and maintaining contact with those parties so that decisions keep their support.	Maintains a list of those involved and informs them about progress according to the agreed rhythm.	Assesses influence and interest per party, chooses a fitting form of contact and discusses conflicting wishes before a decision is taken.	Maintains a network reaching governance and political bodies, connects parties with differing interests and safeguards the position of the organisation.
Social media communication Managing business accounts on social networks, publishing posts and responding to reactions within the rules of the organisation and the platform.	Publishes approved posts with the correct tags and reports negative reactions to the administrator of the account.	Manages a channel independently, replies to questions within an hour and uses statistics to choose posting moments.	Sets policy for conduct on social networks, arranges monitoring and leads the response when a public row emerges.
external awareness Following developments among clients, in the market, in technology and in regulation and naming their consequences for own work and the organisation.	Reads the information provided about clients and rules and names what this means for own tasks.	Follows sources outside the organisation systematically and uses those signals when adjusting working methods within the team.	Translates societal and market developments into strategic choices and positions the organisation with relevant external parties in good time.
Assessing data quality Checks data sets for completeness, accuracy, duplicates and timeliness, describes the defects found and determines whether the data is usable.	Works through a checklist on a supplied data set and reports missing or duplicate records to the person responsible.	Defines validation rules for a data source, quantifies the defects and advises whether the data is fit for use.	Establishes the data quality framework for the entire organisation and decides which sources count as reliable.
Prompting and task delegation to AI Divides work between person and AI system, formulates task, context and required output format and adjusts based on the output.	Gives an AI tool a single task with a clear question and required format and uses the result after checking it.	Splits a work task into steps, decides which step AI does and which not and improves the instruction based on outcomes.	Develops organisation wide practices for dividing tasks with AI and trains others in effective and responsible instruction giving.

Skill	N1	N3	N5
Improving customer journey and experience Maps the steps a customer goes through, measures where friction occurs and implements improvements in process and contact.	Records customer complaints and remarks in the agreed format and passes them on to the process owner.	Maps out the customer journey for a service, names the three largest bottlenecks and implements improvements with those involved.	Sets the standard for customer experience in the organisation and directs improvement programmes across departments.
Marketing strategy Chooses target groups, message, channels and budget for a period and links those choices to goals for awareness, leads and revenue.	Carries out parts of an existing marketing plan and reports for each action what it delivered.	Draws up a marketing plan for a service or market with goals, channel choice and budget and adjusts it on results.	Determines the marketing strategy of the organisation, allocates the budget across channels and accounts for the return to the board.
Flexibility Adjusts working method, planning and behaviour when the situation or the request changes, while keeping the agreed result intact.	Switches to a different task as soon as the supervisor asks and leaves the work in hand in an orderly state.	Revises the approach independently when the request changes, keeps stakeholders informed and still delivers the result within the boundaries.	Builds processes and organisational forms that adapt quickly to new circumstances and decides when the overall course changes.
GDPR and privacy in practice Knows privacy legislation requirements for own work, which legal basis and retention period apply and recognises when notification is required.	Processes personal data only according to the applicable work instruction and refers doubtful cases to the privacy officer.	Judges in own processes whether a legal basis exists, applies data minimisation and handles requests from data subjects correctly.	Sets privacy policy, decides on high risk processing operations and represents the organisation towards the supervisory authority.

6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

Assessment method	rho	SD	What it is
Werkproef	0.33	0.09	The candidate performs a representative work sample under standardised conditions.
Portfolio/bewijsstuk	-	-	A collection of prior work or results, assessed against fixed criteria.
Persoonlijkheidsvragenlijst	0.21	0.15	Self-report of behavioural preferences. At hrmforce the Big Fifty and the 15PF.
Simulatie	-	-	Simulated work situation, usually digital, with standardised scoring.
Assessment center	0.29	0.09	Multiple exercises, multiple assessors, dimension-wise scoring.
Structureerd interview	0.42	0.19	Behaviour-based interview with fixed questions and a rating scale per question.
Kennistoets	0.40	0.13	Test of declarative job knowledge, usually assembled per client.

7 Assessment instruments for this job

hrmforce instrument	Skills	What it measures
Werkproef	18	Representatief werkfragment onder gestandaardiseerde condities
Competency Check	7	Competentiebeoordeling op gedragsniveau
Portfolio	7	Beoordeling van eerder werk tegen vaste criteria
Kennistoets (klantspecifiek)	4	Toets van vakkennis, per klant samengesteld
Big Fifty	3	Persoonlijkheidsvragenlijst, 150 items, 25 factoren
Ability Scan	2	Capaciteitentest: verbaal, numeriek en abstract redeneervermogen
360 Feedback	2	Meervoudige beoordeling op gedragsankers
15PF	1	Persoonlijkheidsprofiel, korter alternatief voor de Big Fifty

8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
