

# Shift Leader Retail

FF02 Operational and team management · ISCO-08 5222 · CBS 0331 Winkeliers en teamleiders detailhandel · seniority medior · Also known as: Duty Manager, Store Shift Supervisor

Carries responsibility for the shop floor or hospitality team during the shift, allocates tasks, opens and closes, and settles complaints and till differences.

During the shift the shift leader is the point of contact for staff and guests and takes over key holder responsibility from the store or venue manager. Unlike a store manager, the role is not about staffing plans, purchasing and annual figures but about how one part of the day runs. Selection often looks only at weekend availability, leaving the induction of new staff and keeping till accounting correct out of sight.

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O\*NET convention.

## 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

| Assessment method          | rho  | SD   | What it is                                                                         |

## 8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
