

# Care Team Manager

FF02 Operational and team management · ISCO-08 1342 · CBS 0534 Managers zorginstellingen · seniority medior · Also known as: Nurse Manager, Healthcare Team Manager

Leads a care team, guards rosters, quality and safety of care, and balances client demand against the available staffing capacity.

The care team manager is responsible for one or more care teams at a location and works within frameworks set by the board, legislation and care contracts. Unlike a nurse specialist, this role steers staffing, absence and team performance rather than individual clinical content. Selection often promotes the best care professional in the team, while roster management, absence policy and holding former colleagues to account are exactly where that step fails.

## 5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O\*NET convention.

|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Planning and organising</b><br>Placing activities, people and resources in time, setting priorities and arranging dependencies so that agreed results are delivered on schedule.                | Makes a daily or weekly schedule for own tasks and sticks to the agreed order and times.                 | Plans the work of the team for several weeks, distributes tasks and reshuffles on disruptions without missing deadlines.        | Sets the planning system for the organisation, links annual plan, capacity and budget and decides on conflicting claims.                       |
| <b>Monitoring progress</b><br>Tracking agreements and workflows, measuring in between whether results are on schedule and adjusting in time on the basis of facts and signals.                     | Keeps a list of own tasks and reports to the manager when an agreement threatens to slip.                | Holds fixed progress reviews with the team, compares plan with actuals and intervenes when deviations appear.                   | Designs the progress and reporting structure for the whole organisation and determines which indicators are tracked at each level.             |
| <b>Capacity and resource planning</b><br>Matching available hours, qualifications and resources against expected workload and distributing staffing so that peaks and shortages remain manageable. | Fills in the staffing list according to the roster and reports gaps in the planning to the planner.      | Calculates required hours and qualifications per period, makes a staffing plan and substantiates requests for extra capacity.   | Develops the capacity model for the whole organisation, links it to demand forecasts and decides on structural use of flexible capacity.       |
| <b>Multidisciplinary care consultation</b><br>Contributes own observations about a client in consultation with other disciplines, weighs their advice and reaches joint agreements.                | Contributes own observations about a client in the meeting and notes the agreements reached in the file. | Structures the input about a complex client, weighs advice from physician and therapist and records clear follow up agreements. | Designs the institution's consultation structure, safeguards decision quality and mediates when disciplines disagree.                          |
| <b>conflict handling</b><br>Naming a difference of interest or opinion, clarifying the positions of those involved and reaching a workable agreement with them.                                    | Reports a conflict to own manager and describes factually what happened and what was said.               | Brings parties together, separates positions from interests and records the resulting agreement and its follow-up in writing.   | Mediates conflicts with high stakes between departments or partners and establishes organisational policy for resolving conflict.              |
| <b>giving feedback</b><br>Naming concrete behaviour and its effect to another person, with a request or proposal, at a moment and in a way that keeps dialogue possible.                           | States after a shared task what a colleague did well and gives a concrete example with it.               | Discusses unwanted behaviour with the person concerned, describes fact, effect and request, and agrees on a follow-up.          | Introduces feedback as a working method across several teams, trains managers in it and monitors whether unwanted behaviour is raised earlier. |

| Skill                                                                                                                                                                                                              | N1                                                                                                       | N3                                                                                                                                     | N5                                                                                                                                             |

| <b>holding others to agreements</b><br>Approaching others when agreements or standards are not met, naming the gap and recording a new agreement together with them.                                               | Addresses a direct colleague about an agreement that was not met and asks when it will be done.          | Also addresses colleagues outside own team about agreements, names the consequence and follows up on the new agreement.                | Addresses executives and partners on compliance with agreements and anchors that practice in the organisation's way of working.                |
| <b>Translating direction into goals</b><br>Converting strategy and vision into concrete, measurable goals and result agreements for teams and employees, with a clear ordering in time and priority.               | Turns a given team goal into own tasks with a deadline and discusses this with the manager.              | Translates department goals into measurable result agreements per team member and records how and when progress will be measured.      | Builds an organisation wide goal structure in which strategy, annual plans and team agreements align, and sets the measurement standards.      |
| <b>Delegating</b><br>Transferring tasks and authority to the right person with clear agreements on result, room and feedback, without taking the work back over.                                                   | Hands a clearly bounded task to a colleague and explains which result and which deadline apply.          | Chooses per task who is able and allowed, agrees decision space and leaves the execution with the other person.                        | Defines which authorities belong at which organisational level and ensures mandates are used consistently across units.                        |
| <b>Conducting performance conversations</b><br>Preparing and holding conversations about performance and results, using factual examples, mutual checking and recorded agreements about improvement or next steps. | Prepares a conversation with two concrete examples of work and asks the manager to review it beforehand. | Conducts annual reviews independently, supports the judgement with facts and records improvement agreements with deadlines in writing. | Sets the review cycle and assessment standards for the organisation and samples the quality of recorded judgements.                            |
| <b>Coaching</b><br>Helping employees reflect on their own behaviour and choices through questions, mirroring and feedback, so they take a next step in their work themselves.                                      | Asks a colleague after a job what went well and what they would do differently next time.                | Holds coaching conversations with open questions, names patterns in behaviour and lets the other person formulate a learning goal.     | Trains managers in coaching behaviour, guides peer supervision groups and determines how coaching is deployed across the organisation.         |
| <b>Continuous improvement</b><br>Finding, testing, measuring and sustaining small improvements in daily work, together with the people who carry out that work.                                                    | Brings improvement ideas to the work meeting and tries out a proposed small change in own work.          | Organises short improvement cycles in the team, measures the effect of a change and secures what works in the work instruction.        | Embeds continuous improvement as a way of working across the organisation, trains improvement coaches and reports gains to the executive team. |

| Skill                                                                                                                                                                                                   | N1                                                                                                            | N3                                                                                                                             | N5                                                                                                                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Planning of operational processes</b><br>Distributes work, people and resources over time so that the required output or service is achieved with the available capacity.                            | Fills in the daily roster following the fixed planning rules and reports staffing bottlenecks to the planner. | Makes the weekly planning for a team, takes peak load and absence into account and replans when disruptions occur.             | Determines the planning model for several departments and decides on capacity expansion or outsourcing of work.                                 |
| <b>Complying with sector regulation</b><br>Knows the laws, standards and supervisory requirements of the own sector and organises the own work and records accordingly.                                 | Works according to the applicable sector rules and checks which rule applies to a new situation.              | Translates changed regulation into the own work instructions and checks whether the records meet the requirements.             | Tracks regulation for the whole organisation, drafts policy when requirements change and holds the dialogue with the supervisor.                |
| <b>Methodical care process and record keeping</b><br>Works through the steps of clarifying the care question, setting goals, planning, delivering and evaluating, and records these in the client file. | Records care delivered and observations in the file on the same day, using the standard reporting format.     | Independently draws up a care plan with measurable goals, evaluates it periodically and adjusts it when the care need changes. | Develops the organisation's record keeping and reporting policy and leads the introduction of a new methodical care standard.                   |
| <b>Empathy in service delivery</b><br>Recognising the situation and feeling of the client, naming it and adjusting own action accordingly without losing the professional boundary.                     | Names that the client is experiencing discomfort, stays calm and asks what would help most at this moment.    | Puts self in the position of a client in a vulnerable situation, chooses words carefully and keeps the agreement businesslike. | Determines how the organisation deals with vulnerable clients, safeguards that standard across the chain and addresses behaviour that deviates. |
| <b>promoting psychological safety</b><br>Acting so that others can voice mistakes, doubt and criticism without disadvantage, by keeping own reactions predictable and following up on what is raised.   | Responds calmly when a colleague reports a mistake and thanks that person for raising it.                     | Explicitly asks the team for doubt and dissent, names own mistakes and reports back what was done with signals raised.         | Measures across the organisation whether people feel safe to speak up and steers leadership behaviour on those outcomes.                        |
| <b>Team development</b><br>Turning a group into a collaborating team by discussing roles, mutual expectations and working agreements and by addressing tensions in the collaboration.                   | Takes active part in team agreements and names in the team meeting what would make collaboration easier.      | Discusses roles and irritations in the team, makes working agreements and evaluates them after an agreed period.               | Develops the collaboration standard between teams and departments and guides managers through deadlocked cooperation across the organisation.   |

| Skill                                                                                                                                                                                              | N1                                                                                                                              | N3                                                                                                                                        | N5                                                                                                                                       |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Managing workload pressure</b><br>Keeps an overview when the volume of work rises, chooses what goes ahead and what does not, and puts the consequences to stakeholders.                        | Tells the supervisor that the work does not fit the available time and follows the choice that is made.                         | Cuts or shifts tasks independently when busy on the basis of importance, records this and discusses consequences with clients.            | Redistributes work and capacity across departments in cases of structural overload and sets norms for sustainable workload distribution. |
| <b>Budgeting and cost control</b><br>Draws up a budget for a task, team or project, tracks spending against that budget and intervenes when overspending threatens.                                | Tracks spending in the supplied overview and reports deviations above the agreed limit.                                         | Makes the budget for an own project, follows realisation per period and proposes measures in case of deviation.                           | Sets the budget framework for the organisation, decides on reallocation of resources and accounts for it to the board.                   |
| <b>Applying a quality management system</b><br>Works according to documented procedures and standards, records deviations and carries out improvement and audit actions within the quality system. | Follows the prescribed procedure in the own work and records a deviation in the reporting system.                               | Carries out internal audits on a process, names the cause of deviations and follows improvement measures through.                         | Builds the quality system of the organisation, sets the standards and represents it towards the certifying body.                         |
| <b>Managing service levels and performance indicators</b><br>Agrees measurable service and performance standards, measures the actual results and takes action when agreed levels are not met.     | Reads the performance overview and reports which agreement was not met in the past week.                                        | Draws up indicators and standards for a service, reports per period and carries out improvement actions on deviation.                     | Determines the system of service levels for the organisation and negotiates these with customers and suppliers.                          |
| <b>Medication safety</b><br>Prepares, checks, administers and records medication according to protocol and recognises risks of errors, interactions and side effects.                              | Distributes medication according to the signing list with double checking and refers unclear orders to an authorised colleague. | Independently checks medication orders for dosage and interactions, spots side effects and consults the pharmacy or physician about them. | Draws up the institution's medication policy, analyses reports of medication errors and implements improvements across the whole chain.  |

## 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

| Assessment method           | rho  | SD   | What it is                                                                         |

## 8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
