

# General Manager

FF01 General management and executive · ISCO-08 112 · CBS 0511 Algemeen directeuren · seniority lead · Also known as: Company Manager, Head of Business

Runs the daily business of a small or mid sized company without a statutory role, steering all departments and reporting to the owner or board.

The general manager is the most senior operational leader below the owner or statutory board and covers every business function. The difference from a statutory director is that no legal authority or personal liability attaches to the role. Selection often fails because companies look for someone who solves everything personally, while the role calls for building structure and handing tasks to department leads.

## 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

## 8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
