

# Grants Administrator

FF05 Finance, control and administration · ISCO-08 4311 · CBS 0434 Financieel administratief medewerkers · seniority medior · Also known as: Subsidy Administrator, Grants Officer

Processes grant applications and accountability reports, tracks spending conditions and deadlines and supplies files for review by the grant provider.

The grants administrator tracks which grants have been awarded, what conditions the spending must meet and when accountability reports are due. Unlike a regular financial administration clerk, conditions here differ per grant scheme and per provider, and breaching them leads to reclaiming. Selection often looks at administrative accuracy, while flagging in time that an expense falls outside the grant conditions before it is made prevents a grant from being reclaimed in practice.

## Key figures for this profile

25 skills · 5 competencies to measure · 6 knockout skills · centre of gravity: Business operations, commerce and entrepreneurship 24%, Cognitive ability and problem solving 23%, Professional knowledge domains 21%

## 1 Competencies to measure

These are the behavioural and ability constructs in this profile. Each one shows which hrmforce questionnaire measures it.

| Competencies to measure                                                                 | Target level                                                                                  | hrmforce instrument     | Assessment method           | Behavioural anchor at target level                                                                                |

| Business case and investment analysis      | N2     | N3     |
| Invoicing and accounts receivable          | N2     | N3     |
| Applying basic tax knowledge               | N2     | N3     |
| Complying with sector regulation           | N2     | N3     |
| Audit and internal control                 | N2     | N3     |
| Managing workload pressure                 | N2     | N3     |
| Process automation                         | N1     | N2     |
| Treasury and working capital management    | N1     | N2     |

## 4 The proficiency scale

| Level     | Label             | Autonomy                                        | Complexity                                 | Scope                                   | Depth of knowledge                           |
|-----------|-------------------|-------------------------------------------------|--------------------------------------------|-----------------------------------------|----------------------------------------------|
| <b>N1</b> | <b>Guided</b>     | works under supervision and follows instruction | routine, one variable at a time            | own task                                | basic understanding of terminology           |
| <b>N2</b> | <b>Applying</b>   | works independently within set frameworks       | familiar situations with limited variation | own role                                | working knowledge, applies standard approach |
| <b>N3</b> | <b>Proficient</b> | sets own approach and seeks input proactively   | several variables, some ambiguity          | own team or process                     | thorough knowledge, weighs alternatives      |
| <b>N4</b> | <b>Advanced</b>   | directs others and decides on the approach      | complex, with conflicting interests        | several teams or a department           | in-depth knowledge, advises others           |
| <b>N5</b> | <b>Leading</b>    | sets the standard and the policy                | strategic, under high uncertainty          | organisation, value chain or profession | authority, advances the profession           |

## 5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O\*NET convention.

| Skill                                                                                                                                                      | N1                                                                                                | N3                                                                                                                               | N5                                                                                                                                      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Quantitative interpretation</b><br>Explains what figures, charts and key indicators mean for the question at hand and states what they do not show.     | Reads a standard report and names which values lie above or below the agreed norm.                | Translates monthly figures into three concrete findings, names the measurement uncertainty and warns when numbers are too small. | Decides which key indicators steer the organisation, demonstrates the pitfalls in the measurement and corrects improper use of figures. |
| <b>Accuracy and attention to detail</b><br>Works carefully, checks own work for errors and keeps to agreements about completeness and correctness of data. | Goes through the own work with a checklist and repairs errors found before the work is passed on. | Builds check moments into the own process, keeps track of errors and prevents repetition by adjusting the method.                | Sets the standards for completeness and correctness, has samples checked and addresses teams on structural sloppiness.                  |

| Skill                                                                                                                                                                                            | N1                                                                                                                  | N3                                                                                                                                         | N5                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Budgeting and cost control</b><br>Draws up a budget for a task, team or project, tracks spending against that budget and intervenes when overspending threatens.                              | Tracks spending in the supplied overview and reports deviations above the agreed limit.                             | Makes the budget for an own project, follows realisation per period and proposes measures in case of deviation.                            | Sets the budget framework for the organisation, decides on reallocation of resources and accounts for it to the board.                       |
| <b>Financial administration</b><br>Processes purchase, sales and bank entries in the accounting system, reconciles ledger accounts and delivers an auditable administration.                     | Posts purchase invoices to the correct ledger account under supervision and refers unclear items to the accountant. | Independently closes the monthly administration, explains differences between subledger and general ledger and corrects incorrect entries. | Designs the layout of the administration and the chart of accounts and sets guidelines for processing and control.                           |
| <b>Controlling and management information</b><br>Builds budgets, forecasts and reports, analyses differences between budget and actuals and explains them to management.                         | Fills the report with figures from the system under guidance and checks that the totals reconcile.                  | Independently analyses budget variances, traces them to operational causes and advises the manager on adjustment.                          | Determines the organisation's steering information, develops the planning and control toolkit and tests investment proposals for soundness.  |
| <b>Numerical reasoning</b><br>Works with numbers, ratios and tables and draws conclusions from them about quantities, trends and relationships in numerical material.                            | Reads a simple table, names the highest and lowest value and calculates a percentage using a calculator.            | Combines two data sources, calculates the development over time and explains which calculation step leads to which result.                 | Sees in complex number series which assumptions determine the outcome and sets the calculation logic that others in the organisation follow. |
| <b>Integrity and dependability</b><br>Acting in line with applicable standards and agreements, also without supervision, and being transparent about own interests, mistakes and doubtful cases. | Keeps to agreements and rules of conduct made and reports an own mistake to the manager.                            | Reports a possible conflict of interest on own initiative and asks for review before a decision is taken.                                  | Sets the organisation's integrity standards, enforces them also with influential parties and explains the resulting choices publicly.        |
| <b>Spreadsheets and worksheets</b><br>Builds worksheets with formulas, references and pivot tables, checks outcomes and presents figures understandably in tables and charts.                    | Enters data in an existing worksheet and uses simple formulas such as sum and average as instructed.                | Builds a worksheet with linked formulas and pivot tables, checks for errors and explains the calculation logic to colleagues.              | Sets the standards for calculation models in the organisation and judges whether models are reliable enough for decision making.             |

| Skill                                                                                                                                                                                            | N1                                                                                                                    | N3                                                                                                                              | N5                                                                                                                                                       |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Reading and interpreting financial reports</b><br>Reads balance sheet, profit and loss account and cash flow statement and derives from these how an organisation or unit stands financially. | Points out the revenue, cost and result items in a periodic report and names the period used.                         | Compares reports across several periods, calculates ratios and names which items explain the deviation.                         | Assesses annual accounts and management reports of the organisation, sets the reporting standard and advises the board on it.                            |
| <b>Knowledge of grants and schemes</b><br>Knows the conditions, deadlines and accountability requirements of grants and schemes and assesses whether an application meets them.                  | Checks an application for completeness against the list of conditions and requests the missing documents.             | Independently assesses a complex application, tests the budget against the scheme and drafts the award decision.                | Designs schemes and accountability frameworks, assesses state aid risk and advises the board on the deployment of funds.                                 |
| <b>Business reporting</b><br>Bringing findings, figures and recommendations together in a report that leads the reader to a decision or next step in one reading.                                | Fills in an existing report template with the correct figures and describes per section what has been done.           | Builds a report from question to conclusion, separates fact from interpretation and phrases recommendations with a named owner. | Sets the reporting line for the whole organisation, tests the quality of steering information and accounts for outcomes to board and regulator.          |
| <b>Problem analysis</b><br>Breaks a problem into parts, separates causes from effects and states which information is needed to move forward.                                                    | States precisely what deviates in a malfunction and which data are missing, and puts this to the supervisor.          | Splits a recurring complaint into possible causes, tests these with own data and names the most likely cause.                   | Traces persistent organisational problems back to a few root causes and sets the analysis method that other teams will use.                              |
| <b>Methodical working</b><br>Follows a fixed and traceable method for tasks, with steps, documentation and checks, so that others can repeat the work.                                           | Completes the steps of a prescribed procedure in the right order and records the result.                              | Chooses a suitable method for a new task, records the steps and sticks to them under time pressure.                             | Writes the working methods for the field, has them tested in practice and revises them at fixed moments.                                                 |
| <b>Advisory skill</b><br>Sharpening the question of a client and delivering a well founded recommendation in a way that the receiver adopts and implements it.                                   | Supplies requested information and explains a standard recommendation following the fixed structure used by the team. | Reframes the question behind the question, offers two supported options with consequences and agrees a decision moment.         | Advises the board on issues with conflicting interests, challenges established assumptions and safeguards the quality of advice across the organisation. |

| Skill                                                                                                                                                                                            | N1                                                                                                                        | N3                                                                                                                              | N5                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Risk management</b><br>Identifying risks in work, projects or policy, weighing likelihood and impact, choosing control measures and periodically testing whether those measures work.         | Reports unsafe or risky situations in the own work through the agreed reporting route.                                    | Draws up a risk list with likelihood, impact and measure per risk and reviews it periodically with those involved.              | Builds the risk framework of the organisation, sets risk appetite with the executive team and reports on it to the supervisory body.  |
| <b>Discipline and keeping commitments</b><br>Sticks to agreements, procedures and commitments even without supervision, and reports in good time when a commitment turns out to be unachievable. | Arrives at the agreed time with the agreed work and reports any delay to the supervisor.                                  | Commits only to what is feasible, tracks own commitments and informs those involved as soon as a deadline comes under pressure. | Anchors the standard for reliable follow through in working agreements and addresses anyone at any level who lets that standard slip. |
| <b>Reporting and dashboard building</b><br>Builds recurring reports and dashboards that show the right indicators for an agreed audience and keeps their definitions up to date.                 | Fills an existing dashboard or report template with current figures and checks the display for errors.                    | Designs a dashboard together with the user, chooses indicators and definitions and processes user feedback into new versions.   | Determines which management information the organisation uses and keeps definitions unambiguous across all reporting.                 |
| <b>Business case and investment analysis</b><br>Substantiates a proposal with costs, benefits, assumptions and risks and calculates payback period and return for the decision makers.           | Fills a standard business case template with supplied figures and names which data are still missing.                     | Builds an own business case with scenarios, makes the assumptions explicit and defends the outcome in the meeting.              | Sets the calculation rules and threshold values for investments and weighs the entire investment portfolio of the organisation.       |
| <b>Invoicing and accounts receivable</b><br>Creates and sends invoices, follows up outstanding items and takes steps on late payment up to handover to debt collection.                          | Creates invoices according to the assignment data and checks address, amount and payment term before sending.             | Manages the outstanding items, follows up arrears by telephone and agrees payment schemes within the established policy.        | Sets the credit and dunning policy of the organisation and decides on write offs and further legal steps.                             |
| <b>Applying basic tax knowledge</b><br>Knows the main rules of value added tax, payroll tax and corporate income tax and applies these to invoices, filings and simple tax questions.            | Puts the correct value added tax rate on an invoice and refers questions about deviating cases to the finance department. | Prepares the periodic value added tax return, checks the reconciliation with the ledger and corrects incorrect bookings.        | Determines the tax approach of the organisation, consults the tax authority and advises the board on tax risks.                       |

| Skill                                                                                                                                                                           | N1                                                                                                                             | N3                                                                                                                             | N5                                                                                                                                                   |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Complying with sector regulation</b><br>Knows the laws, standards and supervisory requirements of the own sector and organises the own work and records accordingly.         | Works according to the applicable sector rules and checks which rule applies to a new situation.                               | Translates changed regulation into the own work instructions and checks whether the records meet the requirements.             | Tracks regulation for the whole organisation, drafts policy when requirements change and holds the dialogue with the supervisor.                     |
| <b>Audit and internal control</b><br>Tests whether processes and records comply with rules and internal control, gathers evidence and reports findings with recommendations.    | Carries out control steps under supervision according to the audit programme and records the evidence found in an orderly way. | Independently designs an audit approach for a high risk process, weighs the evidence and formulates substantiated findings.    | Determines the organisation's annual audit plan and control standards and accounts for the outcomes to the board or council.                         |
| <b>Managing workload pressure</b><br>Keeps an overview when the volume of work rises, chooses what goes ahead and what does not, and puts the consequences to stakeholders.     | Tells the supervisor that the work does not fit the available time and follows the choice that is made.                        | Cuts or shifts tasks independently when busy on the basis of importance, records this and discusses consequences with clients. | Redistributes work and capacity across departments in cases of structural overload and sets norms for sustainable workload distribution.             |
| <b>Process automation</b><br>Analyses a recurring work process, builds or commissions automation of its steps and checks that the outcome stays reliable.                       | Runs an existing automation and reports when the outcome differs from what was expected.                                       | Describes a process in steps, automates the repeatable steps and builds in checks on errors and exceptions.                    | Determines the organisation's automation agenda and decides which processes are and are not automated.                                               |
| <b>Treasury and working capital management</b><br>Manages liquidity, financing and payments, steers receivables, payables and stock and limits interest rate and currency risk. | Prepares the daily liquidity overview under guidance and flags payments that exceed the available headroom.                    | Independently builds a liquidity forecast, steers payment terms and raises the financing need in good time.                    | Determines the organisation's treasury policy, chooses the financing structure and hedges interest and currency risk with substantiated instruments. |

## 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

| Assessment method           | rho  | SD   | What it is                                                                         |
|-----------------------------|------|------|------------------------------------------------------------------------------------|
| Werkproef                   | 0.33 | 0.09 | The candidate performs a representative work sample under standardised conditions. |
| Persoonlijkheidsvragenlijst | 0.40 | 0.15 | Self-report of behavioural preferences. At hrmforce the Big Fifty and the 15PF.    |
| Cognitieve capaciteitentest | 0.41 | 0.14 | Standardised test of verbal, numerical or abstract reasoning.                      |
| Kennistoets                 | 0.40 | 0.13 | Test of declarative job knowledge, usually assembled per client.                   |
| Assessment center           | 0.29 | 0.09 | Multiple exercises, multiple assessors, dimension-wise scoring.                    |
| Praktijkobservatie          | -    | -    | Structured workplace observation with a form based on behavioural anchors.         |
| Structureerd interview      | 0.42 | 0.19 | Behaviour-based interview with fixed questions and a rating scale per question.    |

## 7 Assessment instruments for this job

| hrmforce instrument            | Skills | What it measures                                                 |
|--------------------------------|--------|------------------------------------------------------------------|
| Kennistoets (klantspecifiek)   | 13     | Toets van vakkennis, per klant samengesteld                      |
| Werkproef                      | 12     | Representatief werkfragment onder gestandaardiseerde condities   |
| Competency Check               | 6      | Competentiebeoordeling op gedragsniveau                          |
| Ability Scan                   | 3      | Capaciteitentest: verbaal, numeriek en abstract redeneervermogen |
| Big Fifty                      | 3      | Persoonlijkheidsvragenlijst, 150 items, 25 factoren              |
| 360 Feedback                   | 3      | Meervoudige beoordeling op gedragsankers                         |

## 8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
