

# HRIS Administrator

FF06 HR, recruitment and L and D · ISCO-08 3511 · CBS 0812 Systeembeheerders en netwerkspecialisten · seniority medior · Also known as: HR Systems Administrator, HRIS Analyst

Manages the hr information system, configures workflows and access rights, resolves technical issues and supports hr colleagues with reports from the system.

The hris administrator keeps the hr system technically and functionally working, from authorisations to integrations with payroll processing and other applications. Unlike a functional administrator in the it family, this role works specifically for the hr function and knows the hr processes behind the screens. Selection often looks at system knowledge alone, while recognising that a reported error is actually a misconfigured workflow rather than a technical problem determines in practice the difference between a quick fix and a recurring one.

## 5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O\*NET convention.

| Skill                                                                                                                                                                                                    | N1                                                                                                                    | N3                                                                                                                                 | N5                                                                                                                                                       |

| <b>Incident management and troubleshooting</b><br>Takes in disruptions, establishes the cause through targeted steps, restores the service and keeps reporters and stakeholders informed.           | Logs a disruption completely, works through the standard steps and escalates as soon as own steps do not work.    | Sets an investigation line for an unfamiliar disruption, restores the service and records cause and solution for reuse.                | Designs the organisation's incident process, leads the response to major disruptions and accounts for it to management and clients. |
| <b>Labour relations and works councils</b><br>Knows the rights and roles of employer, trade union and works council and conducts consultation on schemes, reorganisation and collective agreements. | Prepares the meeting documents for the works council and tracks the agreements made and their deadlines.          | Independently consults the works council on an intended change and seeks support within the given frameworks.                          | Determines the organisation's consultation strategy, negotiates collective agreements and mediates when relations have broken down. |
| <b>Working conditions and absence policy</b><br>Knows the rules for safe and healthy work and the steps in absence and reintegration and applies them in conversations and files.                   | Registers absence reports according to procedure and flags when a statutory step in the file is due.              | Independently holds absence conversations, draws up an action plan with company doctor and manager and keeps the file complete.        | Develops the policy on sustainable employability and absence, analyses the figures and tackles causes in the work itself.           |
| <b>Data analysis</b><br>Prepares and analyses data sets to find patterns, relationships and outliers and connects the outcomes to the original question.                                            | Carries out a predefined analysis step on a supplied data set and records the outcome in the agreed format.       | Selects analysis methods for an open question, turns raw data into a working file and supports every conclusion with figures.          | Sets the organisation's analysis standards, reviews the analyses of others and establishes new analysis methods in the profession.  |
| <b>Prompting and task delegation to AI</b><br>Divides work between person and AI system, formulates task, context and required output format and adjusts based on the output.                       | Gives an AI tool a single task with a clear question and required format and uses the result after checking it.   | Splits a work task into steps, decides which step AI does and which not and improves the instruction based on outcomes.                | Develops organisation wide practices for dividing tasks with AI and trains others in effective and responsible instruction giving.  |
| <b>Payroll administration</b><br>Processes payroll changes, calculates pay, deductions and remittances and delivers payslips and returns within the statutory deadlines.                            | Enters submitted payroll changes into the payroll package and checks them for completeness against the checklist. | Independently processes a payroll run with special cases such as absence and final settlement and explains deviations to the employer. | Sets the processing agreements for payroll, assesses the tax consequences of arrangements and advises the board about them.         |

## 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

| Assessment method           | rho  | SD   | What it is                                                                         |

## 8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
