

Inside Sales Support Employee

FF16 Customer service and administration · ISCO-08 3322 · CBS 0431 Administratief medewerkers · seniority medior · Also known as: Sales support representative

Supports field sales and customers with quotes, order processing and product information, keeping client files current for smooth sales handling.

The inside sales support employee works in the office as a link between field sales, customer and internal departments such as logistics. The distinction from a customer service representative lies in the commercial component, such as preparing quotes and spotting sales opportunities. Selection often fails on candidates who are administratively strong but show too little commercial instinct to recognise an opportunity in conversation.

Designs the information flows for the whole field, decides which sources are authoritative and cuts redundant reporting.
Expectation management Making clear in advance what the client will and will not get and when, and reporting in time as soon as that promise becomes unrealistic. 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
