

# Midwife

FF10 Care and nursing · ISCO-08 2222 · CBS 1012 Gespecialiseerd verpleegkundigen · seniority medior · Also known as: Registered Midwife, Obstetric Nurse Midwife

Independently guides pregnancy, birth and the postpartum period in a normal course, and refers to the obstetrician when the course deviates.

The midwife carries independent medical responsibility during birth and decides when transfer to secondary care is needed. This responsibility is often simply ticked off via the diploma during selection. In practice, however, the difference between a normal and an impending complicated birth is measured in seconds.

## Key figures for this profile

24 skills · 9 competencies to measure · 5 knockout skills · centre of gravity: Professional knowledge domains 23%, Collaboration and interpersonal effectiveness 19%, Cognitive ability and problem solving 14%

## 1 Competencies to measure

These are the behavioural and ability constructs in this profile. Each one shows which hrmforce questionnaire measures it.

## 4 The proficiency scale

| Level     | Label             | Autonomy                                        | Complexity                                 | Scope                                   | Depth of knowledge                           |
|-----------|-------------------|-------------------------------------------------|--------------------------------------------|-----------------------------------------|----------------------------------------------|
| <b>N1</b> | <b>Guided</b>     | works under supervision and follows instruction | routine, one variable at a time            | own task                                | basic understanding of terminology           |
| <b>N2</b> | <b>Applying</b>   | works independently within set frameworks       | familiar situations with limited variation | own role                                | working knowledge, applies standard approach |
| <b>N3</b> | <b>Proficient</b> | sets own approach and seeks input proactively   | several variables, some ambiguity          | own team or process                     | thorough knowledge, weighs alternatives      |
| <b>N4</b> | <b>Advanced</b>   | directs others and decides on the approach      | complex, with conflicting interests        | several teams or a department           | in-depth knowledge, advises others           |
| <b>N5</b> | <b>Leading</b>    | sets the standard and the policy                | strategic, under high uncertainty          | organisation, value chain or profession | authority, advances the profession           |

## 5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O\*NET convention.

| Skill                                                                                                                                                                                           | N1                                                                                                                                      | N3                                                                                                                                 | N5                                                                                                                                          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Decisiveness</b><br>Makes a choice within the time available, also when not all information is present, and stands behind its consequences.                                                  | Decides on standard cases within the own task and refers deviating cases to the supervisor in good time.                                | Cuts through conflicting advice, communicates the decision and states when it will be evaluated.                                   | Decides on irreversible matters with major consequences, records the trade off and sets which decisions others may take themselves.         |
| <b>Stress tolerance</b><br>Keeps delivering work of the same quality under time pressure, opposition or unexpected turns and maintains a businesslike tone with others.                         | Keeps working on the current task as pressure rises and asks the supervisor which task can wait.                                        | Keeps working in a structured way at peak load, keeps agreements with clients clear and flags early which results are at risk.     | Keeps the organisation workable in crises, takes decisions under high uncertainty and sets the standard for composed action under pressure. |
| <b>Nursing and personal care practice</b><br>Carries out nursing and personal care procedures for clients, from personal hygiene to reserved procedures, while observing their state of health. | Cares for a client under supervision according to the care plan and reports deviant observations immediately to the person responsible. | Performs nursing procedures independently for clients with a fluctuating clinical picture and involves the physician in good time. | Develops guidelines for nursing practice in the institution, tests them against research and guides teams through their introduction.       |

| Skill                                                                                                                                                                                   | N1                                                                                                                              | N3                                                                                                                                        | N5                                                                                                                                                           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>interpersonal sensitivity</b><br>Noticing verbal and non-verbal signals from others, naming what stands out and adjusting own behaviour accordingly during the contact.              | Notices when a conversation partner disengages or hesitates and asks whether the explanation is clear.                          | Names observed tension or reticence during a conversation and adapts tone, pace and wording accordingly.                                  | Trains others in recognising social signals and uses that insight when designing sensitive change processes across the organisation.                         |
| <b>Medication safety</b><br>Prepares, checks, administers and records medication according to protocol and recognises risks of errors, interactions and side effects.                   | Distributes medication according to the signing list with double checking and refers unclear orders to an authorised colleague. | Independently checks medication orders for dosage and interactions, spots side effects and consults the pharmacy or physician about them. | Draws up the institution's medication policy, analyses reports of medication errors and implements improvements across the whole chain.                      |
| <b>empathy</b><br>Putting oneself in another person's situation and feelings, reflecting that back in own words and acting with regard for that situation.                              | Listens to another person without interrupting and asks how the situation feels for that person.                                | Summarises the other person's feelings and interests before proposing a solution and checks whether that summary is correct.              | Builds room for the perspective of those affected into policy and processes and addresses managers on impersonal decision making.                            |
| <b>Accuracy and attention to detail</b><br>Works carefully, checks own work for errors and keeps to agreements about completeness and correctness of data.                              | Goes through the own work with a checklist and repairs errors found before the work is passed on.                               | Builds check moments into the own process, keeps track of errors and prevents repetition by adjusting the method.                         | Sets the standards for completeness and correctness, has samples checked and addresses teams on structural sloppiness.                                       |
| <b>Conversation management</b><br>Opening, steering and closing a conversation purposefully by asking questions, summarising and making concrete agreements about what happens next.    | Follows a prepared list of questions, asks them in the given order and records the agreements that were made.                   | Chooses a fitting question type for each phase, summarises along the way and steers the conversation back to its goal when it drifts.     | Leads conversations with opposing interests at board level, develops conversation models for the organisation and tests them against practice.               |
| <b>multidisciplinary collaboration</b><br>Working with people from other disciplines by learning their language and methods and establishing shared starting points for the joint work. | Asks a colleague from another discipline what technical terms mean and summarises the answer back to them.                      | Maps the issue with specialists from different disciplines and formulates a joint approach with a clear division of roles.                | Sets up lasting forms of collaboration between disciplines and settles conflicts between professional standards on the basis of the organisational interest. |

| Skill                                                                                                                                                                                                   | N1                                                                                                                    | N3                                                                                                                              | N5                                                                                                                                    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Discipline and keeping commitments</b><br>Sticks to agreements, procedures and commitments even without supervision, and reports in good time when a commitment turns out to be unachievable.        | Arrives at the agreed time with the agreed work and reports any delay to the supervisor.                              | Commits only to what is feasible, tracks own commitments and informs those involved as soon as a deadline comes under pressure. | Anchors the standard for reliable follow through in working agreements and addresses anyone at any level who lets that standard slip. |
| <b>Methodical care process and record keeping</b><br>Works through the steps of clarifying the care question, setting goals, planning, delivering and evaluating, and records these in the client file. | Records care delivered and observations in the file on the same day, using the standard reporting format.             | Independently draws up a care plan with measurable goals, evaluates it periodically and adjusts it when the care need changes.  | Develops the organisation's record keeping and reporting policy and leads the introduction of a new methodical care standard.         |
| <b>Safety awareness</b><br>Continuously watches for unsafe situations and actions at work, addresses others about them and chooses the safe working method even under time pressure.                    | Follows the safety rules of the workplace and checks back when in doubt about an operation.                           | Recognises unsafe situations in own process, intervenes and addresses colleagues without bringing the work to a halt.           | Sets the safety standard for the organisation, makes safety discussable at every level and steers behaviour and culture.              |
| <b>Problem analysis</b><br>Breaks a problem into parts, separates causes from effects and states which information is needed to move forward.                                                           | States precisely what deviates in a malfunction and which data are missing, and puts this to the supervisor.          | Splits a recurring complaint into possible causes, tests these with own data and names the most likely cause.                   | Traces persistent organisational problems back to a few root causes and sets the analysis method that other teams will use.           |
| <b>Dutch language proficiency at professional level</b><br>Commanding Dutch in speech and writing at a level of the Common European Framework of Reference that matches the demands of the role.        | Handles simple work conversations and reads short instructions at level A2 to B1 of the European reference framework. | Writes and discusses professional documents fluently at level B2 and adapts register to formal and informal situations.         | Commands Dutch at level C1 to C2, edits publications written by others and uses professional and legal phrasing precisely.            |
| <b>de-escalating and setting limits</b><br>Reducing rising tension or unwanted behaviour by staying calm, stating the limit clearly and steering or ending the conversation.                            | Stays calm when facing an angry reaction, lets the other person speak and calls in a colleague or manager.            | States which limit is being crossed when behaviour is unwanted, what the consequence is, and ends the conversation when needed. | Establishes organisation-wide agreements on transgressive behaviour, arranges support and follow-up, and holds managers to that line. |

| Skill                                                                                                                                                                                      | N1                                                                                                                          | N3                                                                                                                                 | N5                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Switching between tasks and roles</b><br>Alternates between tasks, roles and counterparts within a working day and matches content, tone and pace to the situation at hand.             | Switches task when instructed and uses the given work instruction per task without mixing in the previous task.             | Switches independently between execution and consultation tasks, keeps notes per role and correctly resumes interrupted work.      | Fills roles in several bodies with clashing interests at the same time and keeps role clarity visible for the organisation.                      |
| <b>Learning from mistakes and incidents</b><br>Investigates after an error or incident what happened, names the cause without shifting blame and changes the working method on that point. | Reports an own error to the supervisor at once and repeats the task following the corrected instruction.                    | Analyses own errors and those of the team, discusses the cause openly in the work meeting and adjusts the agreements.              | Ensures incidents are reported safely across the organisation, has causes analysed structurally and works the lessons into policy and standards. |
| <b>GDPR and privacy in practice</b><br>Knows privacy legislation requirements for own work, which legal basis and retention period apply and recognises when notification is required.     | Processes personal data only according to the applicable work instruction and refers doubtful cases to the privacy officer. | Judges in own processes whether a legal basis exists, applies data minimisation and handles requests from data subjects correctly. | Sets privacy policy, decides on high risk processing operations and represents the organisation towards the supervisory authority.               |
| <b>Safe lifting and moving in care</b><br>Moves and supports clients using lifting technique and aids in such a way that the load on client and care worker stays limited.                 | Moves a client under guidance with the prescribed aid, following the instruction of the designated specialist.              | Independently selects technique and aid for a client with limited mobility and instructs colleagues on the spot.                   | Sets the policy on physical load, analyses incident figures and brings the institution to a demonstrably lower load.                             |
| <b>Multidisciplinary care consultation</b><br>Contributes own observations about a client in consultation with other disciplines, weighs their advice and reaches joint agreements.        | Contributes own observations about a client in the meeting and notes the agreements reached in the file.                    | Structures the input about a complex client, weighs advice from physician and therapist and records clear follow up agreements.    | Designs the institution's consultation structure, safeguards decision quality and mediates when disciplines disagree.                            |
| <b>Physical strength and endurance</b><br>Provides the strength and endurance the work requires to lift, carry and move loads over the course of a working day.                            | Lifts and carries light loads over a short distance with the prescribed technique within own task.                          | Moves heavy loads independently with aids, spreads the effort across the shift and maintains the agreed pace.                      | Determines for the entire process how heavy work is distributed and which aids are standard, and substantiates that choice.                      |

| Skill                                                                                                                                                                                                       | N1                                                                                                                              | N3                                                                                                                                   | N5                                                                                                                                        |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Working with shift work and irregular hours</b><br>Organises own work around changing shifts and irregular hours, keeps handover complete and coordinates planning and availability with the team.       | Works according to the roster, arrives on time and hands over outstanding matters at the end of the shift.                      | Plans own work across changing shifts, allocates tasks to the part of day that suits them best and swaps carefully.                  | Designs roster models for the organisation, weighs continuity against workability and makes agreements with team and representation.      |
| <b>Working with digital devices and applications</b><br>Uses computers, mobile devices and standard applications to carry out work tasks, adjusts settings and resolves simple usage problems without help. | Opens and uses the prescribed applications for own tasks and asks for help whenever an unfamiliar message appears.              | Selects the appropriate device and application for each task and fixes common disruptions without support from others.               | Defines organisation wide which digital workplace facilities are used and guides their introduction across all teams.                     |
| <b>Emergency response and first aid</b><br>Acts according to the emergency procedure in an accident, fire or evacuation, gives first aid within own authorisation and hands over to emergency services.     | Knows where equipment and escape routes are, raises the alarm per procedure and follows the emergency responder's instructions. | Gives first aid independently, coordinates an evacuation of own department and hands over to emergency services in a structured way. | Sets up emergency response for the organisation, plans drills and scenarios and evaluates performance with the regional safety authority. |

## 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

| Assessment method           | rho  | SD   | What it is                                                                         |
|-----------------------------|------|------|------------------------------------------------------------------------------------|
| Situational Judgement Test  | 0.12 | 0.11 | Scenario with response options, scored on knowledge or behavioural tendency.       |
| Persoonlijkheidsvragenlijst | 0.40 | 0.15 | Self-report of behavioural preferences. At hrmforce the Big Fifty and the 15PF.    |

| Werkproef                    | 5      | Representatief werkfragment onder gestandaardiseerde condities |
| 15PF                         | 2      | Persoonlijkheidsprofiel, korter alternatief voor de Big Fifty  |
| Mentale Weerbaarheid (4C)    | 2      | Mentale weerbaarheid volgens het 4C-model                      |
| Kleurenprofiel (Jung)        | 2      | Vier kleurentypen, gekoppeld aan Big Fifty-factoren            |

| hrmforce instrument    | Skills | What it measures                                                 |
|------------------------|--------|------------------------------------------------------------------|
| Communicatiestijlen    | 1      | Voorkeursstijl in communicatie                                   |
| Portfolio              | 1      | Beoordeling van eerder werk tegen vaste criteria                 |
| Ability Scan           | 1      | Capaciteitentest: verbaal, numeriek en abstract redeneervermogen |
| Conflictstijlen        | 1      | Voorkeursstijl in conflictsituaties                              |
| Structureerd interview | 1      | Gedraggericht interview met vaste opzet                          |

## 8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
