

# Registered Health Psychologist (GZ)

FF11 Social work and support services · ISCO-08 2634 · CBS 1022 Psychologen en sociologen · seniority senior  
 · Also known as: Health Care Psychologist, Registered Clinical Psychologist

Makes diagnoses based on psychological assessment, develops treatment plans and treats clients with psychological complaints within her own register.

The registered health psychologist is registered under the BIG act and may independently diagnose and treat. That registration is often seen in recruitment as sufficient proof of suitability. The difference between a good diagnostician and a good therapist, however, can be large in practice and is rarely tested separately.

## Key figures for this profile

23 skills · 7 competencies to measure · 6 knockout skills · centre of gravity: Collaboration and interpersonal effectiveness 29%, Communication and influence 17%, Professional knowledge domains 14%

## 1 Competencies to measure

These are the behavioural and ability constructs in this profile. Each one shows which hrmforce questionnaire measures it.

| Competencies to measure                                                                            | Target level | hrmforce instrument                            | Assessment method           | Behavioural anchor at target level                                                                                                   |

## 4 The proficiency scale

| Level     | Label             | Autonomy                                        | Complexity                                 | Scope                                   | Depth of knowledge                           |
|-----------|-------------------|-------------------------------------------------|--------------------------------------------|-----------------------------------------|----------------------------------------------|
| <b>N1</b> | <b>Guided</b>     | works under supervision and follows instruction | routine, one variable at a time            | own task                                | basic understanding of terminology           |
| <b>N2</b> | <b>Applying</b>   | works independently within set frameworks       | familiar situations with limited variation | own role                                | working knowledge, applies standard approach |
| <b>N3</b> | <b>Proficient</b> | sets own approach and seeks input proactively   | several variables, some ambiguity          | own team or process                     | thorough knowledge, weighs alternatives      |
| <b>N4</b> | <b>Advanced</b>   | directs others and decides on the approach      | complex, with conflicting interests        | several teams or a department           | in-depth knowledge, advises others           |
| <b>N5</b> | <b>Leading</b>    | sets the standard and the policy                | strategic, under high uncertainty          | organisation, value chain or profession | authority, advances the profession           |

## 5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O\*NET convention.

| Skill                                                                                                                                                                                | N1                                                                                                            | N3                                                                                                                                    | N5                                                                                                                                             |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Conversation management</b><br>Opening, steering and closing a conversation purposefully by asking questions, summarising and making concrete agreements about what happens next. | Follows a prepared list of questions, asks them in the given order and records the agreements that were made. | Chooses a fitting question type for each phase, summarises along the way and steers the conversation back to its goal when it drifts. | Leads conversations with opposing interests at board level, develops conversation models for the organisation and tests them against practice. |
| <b>interpersonal sensitivity</b><br>Noticing verbal and non-verbal signals from others, naming what stands out and adjusting own behaviour accordingly during the contact.           | Notices when a conversation partner disengages or hesitates and asks whether the explanation is clear.        | Names observed tension or reticence during a conversation and adapts tone, pace and wording accordingly.                              | Trains others in recognising social signals and uses that insight when designing sensitive change processes across the organisation.           |
| <b>de-escalating and setting limits</b><br>Reducing rising tension or unwanted behaviour by staying calm, stating the limit clearly and steering or ending the conversation.         | Stays calm when facing an angry reaction, lets the other person speak and calls in a colleague or manager.    | States which limit is being crossed when behaviour is unwanted, what the consequence is, and ends the conversation when needed.       | Establishes organisation-wide agreements on transgressive behaviour, arranges support and follow-up, and holds managers to that line.          |

| Skill                                                                                                                                                                                                     | N1                                                                                                                     | N3                                                                                                                                    | N5                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Psychometric analysis</b><br>Analyses test data for reliability, validity, item functioning and norms and judges whether an instrument fits its intended use.                                          | Computes reliability measures and item statistics as prescribed and delivers the output to the responsible researcher. | Runs item and factor analyses on a test administration, assesses norm groups and advises on revising items or scales.                 | Sets psychometric quality requirements for the instrument portfolio and accounts for validity and fairness to clients and regulators.      |
| <b>Support in disability care</b><br>Supports people with an intellectual or physical disability in daily activities, communication and day programmes, attuned to their capabilities.                    | Supports a client with daily activities under supervision and follows the agreements set out in the support plan.      | Independently attunes support to the client's level and behaviour and involves the personal network in choices.                       | Develops support methods for the target group, grounds them in professional literature and guides teams through severe behavioural issues. |
| <b>Evidence-based decision making</b><br>Seeks the best available data and research for a decision, weighs their quality and justifies the decision on that basis.                                        | Uses the prescribed data and checklists for a choice and records what the decision is based on.                        | Brings in data and professional literature for a decision, states their strength of evidence and picks the best supported option.     | Introduces the requirement that decisions are supported by evidence, sets up evaluation and has assumptions tested systematically.         |
| <b>Listening and probing</b><br>Taking in the message of the other party fully, checking whether it is understood correctly and using targeted questions to surface underlying interests and assumptions. | Lets the other person finish speaking, takes notes and afterwards asks about anything that stayed unclear.             | Summarises both the content and the feeling of the other party and probes until the real interest behind the request becomes visible. | Picks up sensitive signals in conversations with directors and supervisors and uses them to adjust organisational policy in good time.     |
| <b>integrity and dependability</b><br>Acting in line with applicable standards and agreements, also without supervision, and being transparent about own interests, mistakes and doubtful cases.          | Keeps to agreements and rules of conduct made and reports an own mistake to the manager.                               | Reports a possible conflict of interest on own initiative and asks for review before a decision is taken.                             | Sets the organisation's integrity standards, enforces them also with influential parties and explains the resulting choices publicly.      |
| <b>moral judgement</b><br>Naming the interests, standards and consequences involved in a dilemma, making the trade-off traceable and substantiating the decision taken.                                   | Puts a case of moral doubt to the manager and names which rule or agreement is in tension.                             | Works out a dilemma along the interests of those involved and applicable standards, and justifies the chosen solution in the team.    | Develops the frameworks the organisation uses for ethical questions and guides decision making in cases with major societal consequences.  |

| Skill                                                                                                                                                                                                   | N1                                                                                                               | N3                                                                                                                                    | N5                                                                                                                                                |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Stress tolerance</b><br>Keeps delivering work of the same quality under time pressure, opposition or unexpected turns and maintains a businesslike tone with others.                                 | Keeps working on the current task as pressure rises and asks the supervisor which task can wait.                 | Keeps working in a structured way at peak load, keeps agreements with clients clear and flags early which results are at risk.        | Keeps the organisation workable in crises, takes decisions under high uncertainty and sets the standard for composed action under pressure.       |
| <b>Managing boundaries and energy</b><br>Distributes own effort across the working week, says no to work that does not fit with reasons, and arranges variety between demanding and lighter tasks.      | Reports to the supervisor when tasks no longer fit within working hours and follows the choice that is made.     | Deliberately alternates demanding and lighter tasks, declines extra work with reasons and keeps own diary within the agreed hours.    | Sets agreements across the organisation on sustainable effort and workload distribution and holds managers to compliance with them.               |
| <b>Methodical care process and record keeping</b><br>Works through the steps of clarifying the care question, setting goals, planning, delivering and evaluating, and records these in the client file. | Records care delivered and observations in the file on the same day, using the standard reporting format.        | Independently draws up a care plan with measurable goals, evaluates it periodically and adjusts it when the care need changes.        | Develops the organisation's record keeping and reporting policy and leads the introduction of a new methodical care standard.                     |
| <b>Problem analysis</b><br>Breaks a problem into parts, separates causes from effects and states which information is needed to move forward.                                                           | States precisely what deviates in a malfunction and which data are missing, and puts this to the supervisor.     | Splits a recurring complaint into possible causes, tests these with own data and names the most likely cause.                         | Traces persistent organisational problems back to a few root causes and sets the analysis method that other teams will use.                       |
| <b>Correspondence and record keeping</b><br>Drafting business letters, emails and conversation records and filing them so that the handling remains traceable later for colleagues and regulators.      | Sends standard letters from the system, saves attachments in the agreed location and notes the date of dispatch. | Formulates answers to unusual questions independently, records the considerations briefly and keeps the file complete and up to date. | Designs the correspondence and archiving standard for the organisation, checks compliance and accounts for file quality during an external audit. |
| <b>collaborating in chains and alliances</b><br>Working with external parties towards a shared result by agreeing and tracking roles, information exchange and responsibilities between organisations.  | Performs an own task within a chain agreement and reports to the contact person what does not fit.               | Aligns working methods and handover moments with partner organisations and resolves bottlenecks in the cooperation with them.         | Builds alliances with parties that hold differing interests and establishes governance and result agreements for the whole chain.                 |

| Skill                                                                                                                                                                                                   | N1                                                                                                                          | N3                                                                                                                                 | N5                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>working with difference and diversity of perspective</b><br>Making differences in working methods, background knowledge and insight within a group visible and using them to reach better solutions. | Asks about a colleague's different approach how it works and why it was chosen.                                             | Deliberately gathers diverging angles on an issue, weighs them and accounts for which insights end up in the solution.             | Arranges that teams routinely include dissent and different angles and tests the effect on the quality of decisions.                                      |
| <b>Reflecting on own practice</b><br>Looks back on own work in a structured way, names the effect of choices made and formulates one concrete point to do differently.                                  | Answers the questions of the supervisor after a task about what went well and what was difficult.                           | Takes time to review difficult situations, looks for patterns in own conduct and records one improvement point in writing.         | Builds reflection into work processes as a standard step, guides peer review across the organisation and keeps difficult assumptions open for discussion. |
| <b>GDPR and privacy in practice</b><br>Knows privacy legislation requirements for own work, which legal basis and retention period apply and recognises when notification is required.                  | Processes personal data only according to the applicable work instruction and refers doubtful cases to the privacy officer. | Judges in own processes whether a legal basis exists, applies data minimisation and handles requests from data subjects correctly. | Sets privacy policy, decides on high risk processing operations and represents the organisation towards the supervisory authority.                        |
| <b>Public service delivery to citizens</b><br>Handles citizens' applications and questions according to law and procedure, explains decisions understandably and keeps an eye on lead time.             | Handles standard applications according to the work instruction and refers deviant cases to an experienced case handler.    | Independently handles applications with exceptions, explains the outcome in plain language and monitors the deadlines.             | Redesigns the service delivery processes for the whole domain and sets standards for lead time and comprehensibility.                                     |
| <b>Safety awareness</b><br>Continuously watches for unsafe situations and actions at work, addresses others about them and chooses the safe working method even under time pressure.                    | Follows the safety rules of the workplace and checks back when in doubt about an operation.                                 | Recognises unsafe situations in own process, intervenes and addresses colleagues without bringing the work to a halt.              | Sets the safety standard for the organisation, makes safety discussable at every level and steers behaviour and culture.                                  |
| <b>Advisory skill</b><br>Sharpening the question of a client and delivering a well founded recommendation in a way that the receiver adopts and implements it.                                          | Supplies requested information and explains a standard recommendation following the fixed structure used by the team.       | Reframes the question behind the question, offers two supported options with consequences and agrees a decision moment.            | Advises the board on issues with conflicting interests, challenges established assumptions and safeguards the quality of advice across the organisation.  |

| Skill                                                                                                                                                                                                       | N1                                                                                                                 | N3                                                                                                                                        | N5                                                                                                                    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Improvising within boundaries</b><br>Devises a workable solution on the spot in an unexpected situation, staying within applicable rules, safety requirements and agreements.                            | Reports an unexpected situation immediately and carries out the solution the supervisor provides.                  | Chooses an interim solution within the rules when something fails or an unexpected request arrives, and records afterwards what deviated. | Determines how much room for improvisation the organisation allows and records which boundaries are never crossed.    |
| <b>Working with digital devices and applications</b><br>Uses computers, mobile devices and standard applications to carry out work tasks, adjusts settings and resolves simple usage problems without help. | Opens and uses the prescribed applications for own tasks and asks for help whenever an unfamiliar message appears. | Selects the appropriate device and application for each task and fixes common disruptions without support from others.                    | Defines organisation wide which digital workplace facilities are used and guides their introduction across all teams. |

## 6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

| Assessment method           | rho  | SD   | What it is                                                                         |
|-----------------------------|------|------|------------------------------------------------------------------------------------|
| Assessment center           | 0.29 | 0.09 | Multiple exercises, multiple assessors, dimension-wise scoring.                    |
| Persoonlijkheidsvragenlijst | 0.40 | 0.15 | Self-report of behavioural preferences. At hrnforce the Big Fifty and the 15PF.    |
| Situational Judgement Test  | 0.12 | 0.11 | Scenario with response options, scored on knowledge or behavioural tendency.       |
| Werkproef                   | 0.33 | 0.09 | The candidate performs a representative work sample under standardised conditions. |
| Praktijkobservatie          | -    | -    | Structured workplace observation with a form based on behavioural anchors.         |
| 360 feedback                | -    | -    | Multiple raters around the person rate behaviour against behavioural anchors.      |
| Structureerd interview      | 0.42 | 0.19 | Behaviour-based interview with fixed questions and a rating scale per question.    |
| Portfolio/bewijsstuk        | -    | -    | A collection of prior work or results, assessed against fixed criteria.            |
| Kennistoets                 | 0.40 | 0.13 | Test of declarative job knowledge, usually assembled per client.                   |

## 7 Assessment instruments for this job

| hrnforce instrument          | Skills | What it measures                                               |
|------------------------------|--------|----------------------------------------------------------------|
| Competency Check             | 8      | Competentiebeoordeling op gedragsniveau                        |
| Big Fifty                    | 7      | Persoonlijkheidsvragenlijst, 150 items, 25 factoren            |
| 360 Feedback                 | 7      | Meervoudige beoordeling op gedragsankers                       |
| Werkproef                    | 6      | Representatief werkfragment onder gestandaardiseerde condities |
| Kennistoets (klantspecifiek) | 4      | Toets van vakkennis, per klant samengesteld                    |

| Pulse Survey                   | 1      | Periodieke meting op team- en organisatieniveau                  |
| Ability Scan                   | 1      | Capaciteitentest: verbaal, numeriek en abstract redeneervermogen |

## 8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
